RE: Removal #8 - OU#3
U.S. DOE Fernald
OH6 890 008 976

Dear Mr. Craig:

On December 11, 1990, the United States Department of Energy (U.S. DOE) submitted a work plan for Removal #8 - Plant 1 container storage pad to the United States Environmental Protection Agency (U.S. EPA). The Plant #1 container storage pad is a part of Operable Unit (OU) #3. On January 9, 1991, U.S. EPA disapproved the work plan. U.S. DOE was to have submitted a revised work plan within thirty (30) days of this disapproval. On March 4, 1991, U.S. DOE submitted a response to the deficiencies identified by U.S. EPA, but has not yet submitted a revised work plan.

In a letter received on May 10, 1991, U.S. DOE stated that U.S. EPA is delaying the implementation of the removal for failure to review U.S. DOE's response to the deficiencies previously identified by U.S. DOE. As stated in a May 6, 1991, letter, U.S. DOE is required by the 1990 Consent Agreement to submit a revised work plan. U.S. EPA will review the revised work plan within thirty (30) days of its receipt.

Please contact me at (312/FTS) 886-4436 if there are any questions regarding this matter.

Sincerely,

Catherine A. McCord
